With the expertise of BİKALDİ;

Our aim is to bring Turkish coffee culture to the highest level  
both in our country and in the world,

to produce the best quality products from Espresso to  
Filter Coffee, from Salep to Hot Chocolate, with its  
wide range of products.

BİKALDİ Coffee; Raw coffee beans are  
processed in a fully automated system installed  
with the latest technology at all stages, from supplying,  
grilling, grinding and packing.

In Brazil; the most efficient period of harvest is imported from  
May to September by carefully selecting  
the best quality beans by experts.

Raw beans are produced after analysis  
by the Quality Assurance team in laboratory conditions  
before they are taken into the production process.

All of our products are prepared with the help of a specialized  
R&D and Quality Assurance team in the direction of  
objective tasting panels.

The BİKALDİ quality, which is noticed from the first sip  
with its taste and technology,  
aims to be indispensable for coffee enthusiasts.
